

FIG. 1 is a perspective view of a device 10 in accordance with the present invention. The device 10 includes a base 12, a top 14, and a front panel 16. The base 12 is formed by a pair of side rails 18 and 20, and a bottom rail 22. The top 14 is formed by a pair of side rails 24 and 26, and a top rail 28. The front panel 16 is formed by a pair of side rails 30 and 32, and a front rail 34. The device 10 is shown in a perspective view, with the front panel 16 being open, revealing the interior of the device 10. The interior of the device 10 includes a plurality of components, including a plurality of electronic components 36, a plurality of mechanical components 38, and a plurality of electrical components 40. The device 10 is shown in a perspective view, with the front panel 16 being open, revealing the interior of the device 10.
